1. About the Club

SRM Insider Community is a student-led initiative founded in early 2025 by a group of passionate individuals determined to bridge the gap between students and impactful resources. Run by a core team of SRM students across multiple domains, the club operates as a centralized hub for building digital tools, driving student engagement, and fostering innovation on campus. We have also built a strong digital presence through our official social media handles, achieving a remarkable reach of **80.8K** in just 14 days. Over **600 students** have shown interest in joining and contributing to the community. Our LinkedIn handle, [SRM Insider](#), serves as our professional showcase for updates, launches, and team growth.

The club has also attracted recognition from other student-led communities—**D2D (Dorm to Dorm)** recently proposed a collaboration for hosting **joint workshops and events**, acknowledging our shared vision of empowerment and innovation among students. Initially launched as an online platform, it has now grown into a vibrant and impactful community committed to supporting students through collaboration, creativity, and tech-forward thinking.

2. Mission&Vision

Mission:

- To create purpose-driven platforms that solve real student problems.
- To build a tight-knit, inclusive community driven by curiosity and collaboration.
- To support students in personal and professional development through real-world projects and peer learning.
- To establish a culture of continuous innovation and open access.

- To guide students in pursuing development, helping them learn new skills through hands-on projects.
- To build college-friendly, safe, and accessible tools usable across all SRM campuses.
- To develop solutions capable of addressing challenges not just in SRM, but in broader real-world contexts.
- To provide guidance and opportunities in placement preparation, soft skills, and real-world corporate exposure through internships and project-based learning.

Vision

To become SRM's most impactful student-driven community—empowering students to build, connect, and innovate using the tools and opportunities we create. Our long-term goal is to develop products that solve real-world and college-specific problems. We aim to digitalize SRM in every possible way, creating tools and platforms that simplify student life across all campuses. Our vision includes expanding our presence to every SRM campus with a dedicated campus ambassador network and scaling our community to build as many effective tools as possible.

3. Core Values

- **Innovation:** We encourage creativity and constantly experiment with new ideas.
- **Collaboration:** We work together across domains, valuing every voice and contribution.
- **Inclusivity:** We welcome all students—regardless of background or domain.
- **Transparency:** We share our work, progress, and processes openly.
- **Community Impact:** Every project we create is designed to serve the student community.

4. Key Focus Areas / Domains

- **Tech Development:** Building student-centric platforms and tools.
- **UI/UX & Design:** Designing user-first interfaces for accessibility and engagement.
- **Marketing & Community:** Managing communications, outreach, and user growth.
- **Social Media Management:** Handling branding, engagement, and digital presence across platforms.

- **Content & Strategy:** Creating engaging content and maintaining alignment with student needs.
- **Operations & Events:** Organizing meetups, onboarding, and project execution.
- **Real-World Software Applications:** Developing scalable and impactful software projects that address genuine user needs.
- **Hardware & IoT Projects:** Exploring and building innovative hardware-based solutions and prototypes.
- **Career Development:** Supporting students with placement prep, soft skills training, corporate internship guidance, and mentorship.
- **Open Innovation & Collaboration:** Partnering with other communities, clubs, and developers to co-create solutions.
- **Freelance Support:** This support will help the students gain experience in corporate life and also gain good internship opportunities.

5. Flagship Projects & Achievements

Here's a quick look at the key projects built by our team, each designed to solve real student problems in simple, effective ways:

- **SRM Roomie**
A roommate-finding platform for freshers to connect based on preferences like location, stream, and hostel type.
Link- <https://srmroomie.srminsider.live/signin>
- **Vaultify**
A secure place to store your academic documents like mark sheets, certificates, and ID cards — all in one click.
Link- [SIC || Vaultify](#)
- **SRM Seat Finder**
Helping students predict their branch and seat allocation chances using smart filters and previous year data.
Link- [SRMIST SEAT FINDER](#)
- **Telegram Bot**
A fast, easy-to-use bot that helps students get access to forms, tools, and updates directly on Telegram.
Link- [Telegram: Launch @srm_academia_bot](#)

- **SRM Lost and Found**

Helping students to find their lost items in the campus of SRM University and this application is for all the campuses.

6. Upcoming Initiatives

- **SRM Insider Official Website:** A techy, interactive portfolio showcasing all tools, team, events, and updates.
- **SRM E-Library:** A centralized platform for accessing notes, previous year papers, and academic resources contributed by students.
- **Team Finder:** A smart tool to help students find like-minded peers for hackathons, group projects, or startups.
- **Event Booking System:** A streamlined portal for students to view, register, and manage entries for college events, workshops, and fests.
- **Java-SRM Food Court Digitalization:** A web and app-based solution allowing students to order from any restaurant in Java; users will get notifications when their food is ready to avoid long queues and crowding.

- **Domain Teams:** Project-based flexible teams under core supervision, categorized into the following key domains:
 - **Web Development:** Aim to create seamless, scalable web platforms that become essential digital tools for every SRM student.
 - **App Development:** Focus on building mobile apps that simplify campus life and make our solutions accessible anytime, anywhere.
 - **AI & ML:** Leverage AI to design smart, data-driven solutions that personalize and improve student experiences.
 - **Cloud & DevOps:** Ensure our projects are always reliable, secure, and fast with cloud-native deployments and automation.
 - **Creatives:** Shape SRM Insider's identity with engaging visuals and designs that inspire curiosity and community pride.

- **Corporate:** Build strong industry connections to provide students with internships, mentorships, and real corporate exposure.
- **Mentorship Circle:** Seniors and alumni guiding ongoing projects.

8. Membership Info

- **Eligibility:** Open to all SRM students from any year or department.
- **Selection:** Application + Task Round + Short Interview + Background Check.
- **Member Benefits:**
 - Real project exposure
 - Certificate & portfolio-worthy experience
 - Networking & mentorship opportunities
 - Priority access to Insider events and launches
 - Career guidance and placement support from peers and mentors

9. Collaboration Opportunities

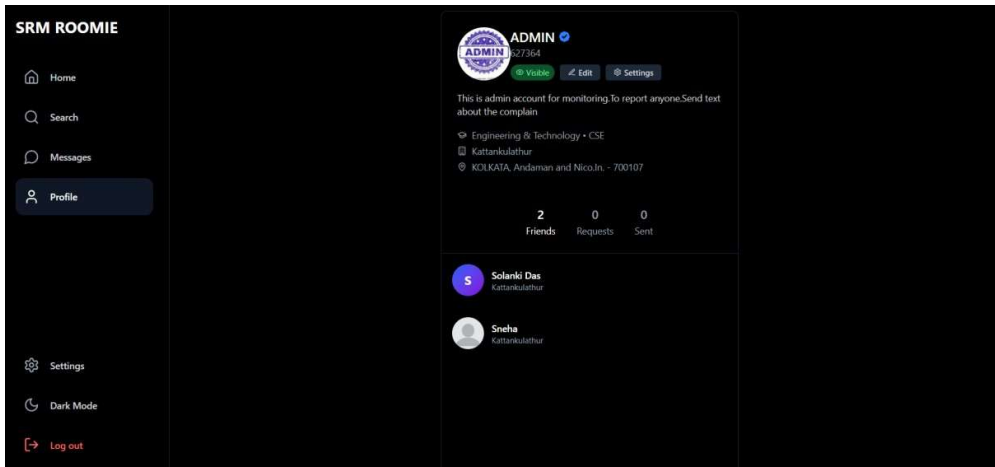

We are open to:

- **Inter-club collaborations** for projects, outreach, and events
- **Mentorships** with alumni or external experts
- **Sponsorships** to support and scale our tools
- **Guest sessions or workshops** from domain experts

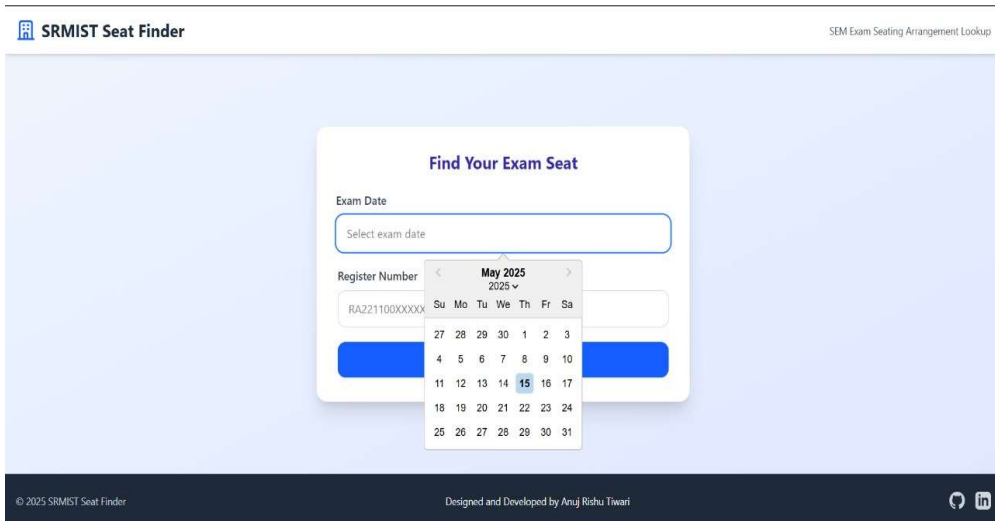

Our goal is to build meaningful partnerships that amplify student potential and drive real-world impact.

10. Screenshots-

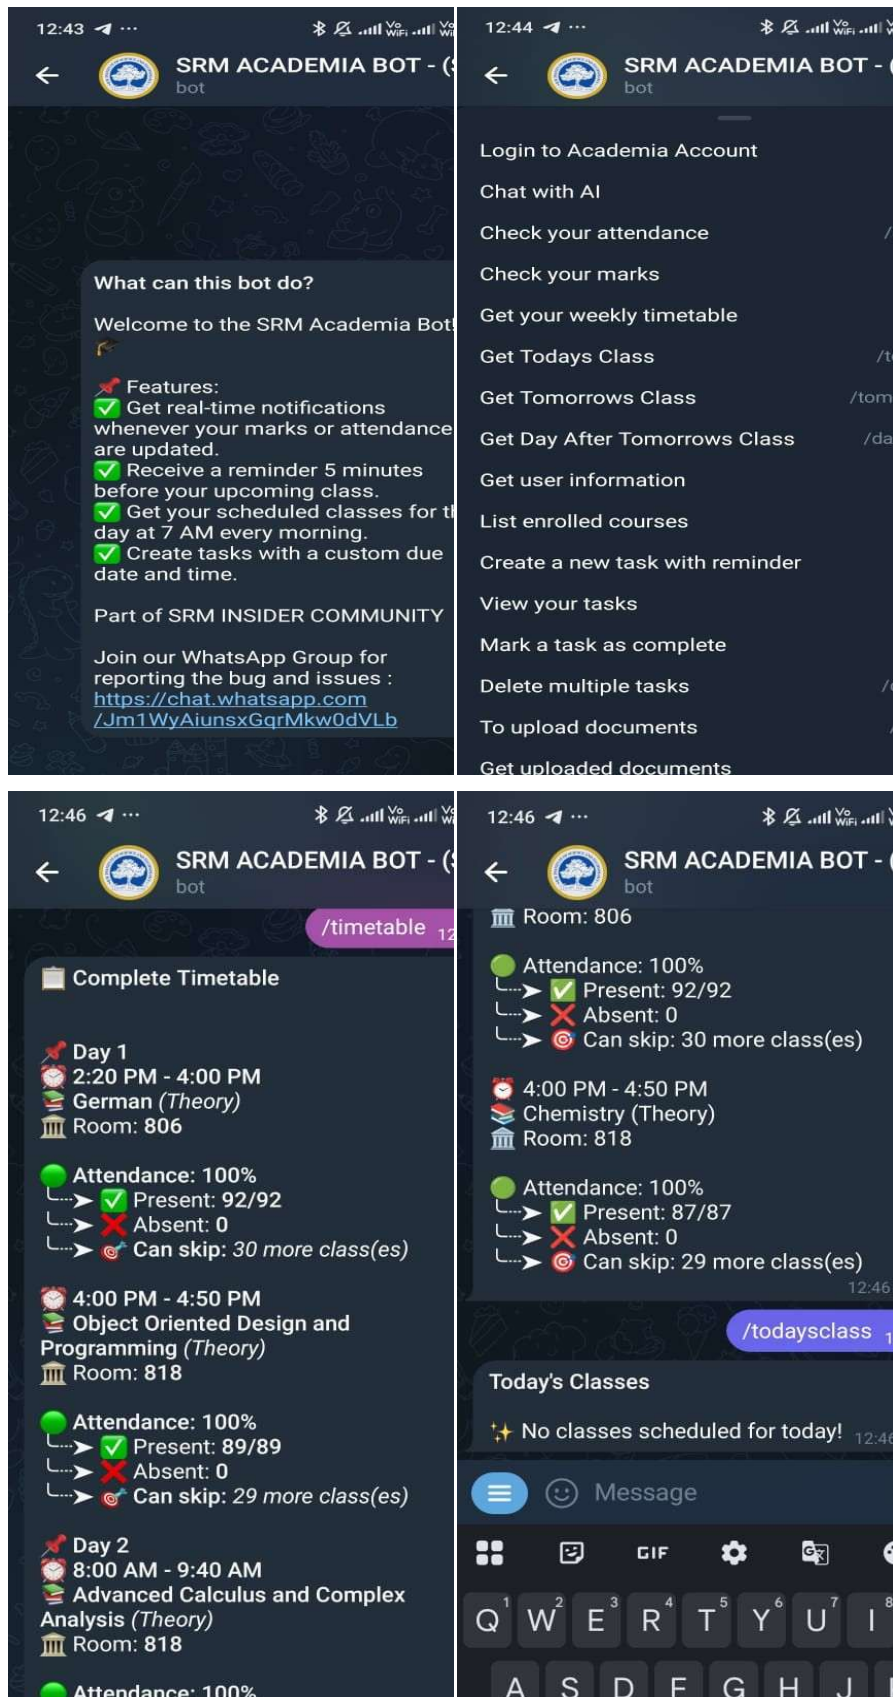

- **SRM ROOMIE-**

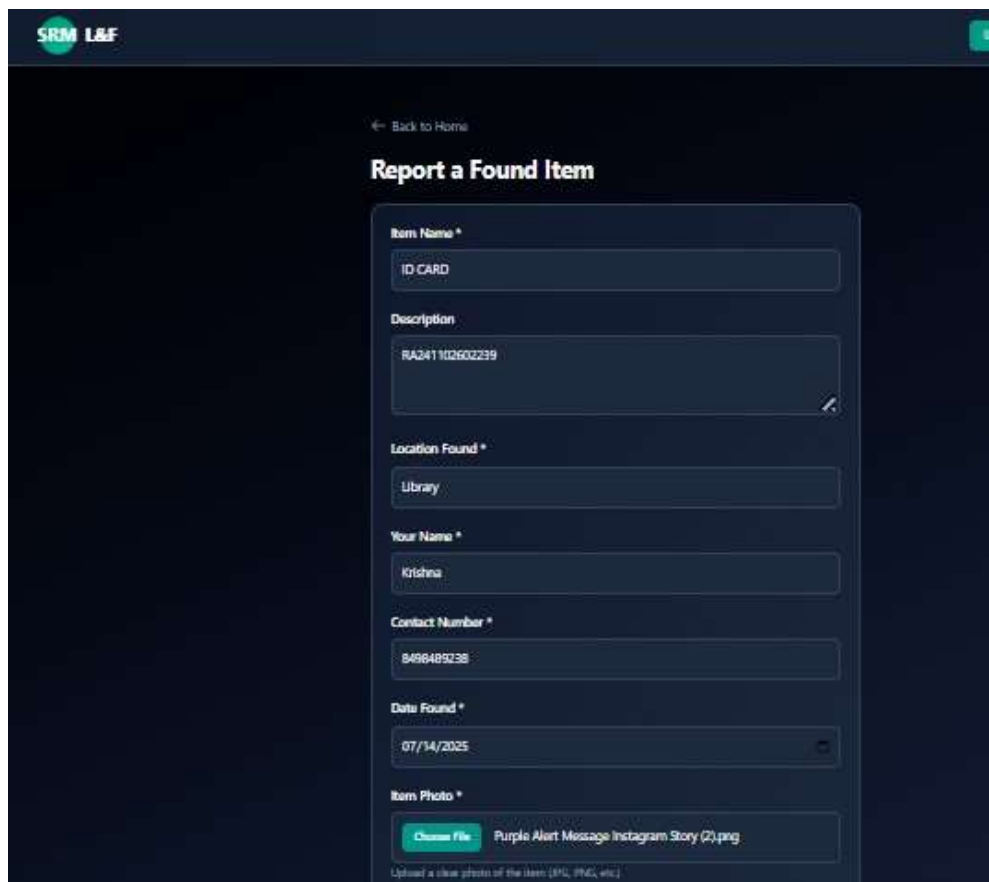

- **SRM SEAT FINDER-**

- **SRM TELEGRAM BOT-**

- **SRM LOST AND FOUND-**

A dark-themed mobile app interface for the "Report a Found Item" screen. At the top left is a "Back to Home" link. The title "Report a Found Item" is centered. Below it is a form with several fields: "Item Name *" with the value "ID CARD"; "Description" with the value "RA241102602239"; "Location Found *" with the value "Library"; "Your Name *" with the value "Krishna"; "Contact Number *" with the value "8496485238"; "Date Found *" with the value "07/14/2025"; and "Item Photo *" with a file name "Purple Alert Message Instagram Story (2).png". At the bottom, there is a small note: "Upload a clear photo of the item (JPG, PNG, etc.)".
